**AUTOMATION TECHNICIAN (M/W/D)**  
**YOUR FUTURE YOUR PATH**

**ANDRITZ**

ENGINEERED SUCCESS

## Apprenticeship in mechatronics – automation technician

When you are the link between hardware and software!

*Duration of apprenticeship: 3 ½ years*

### Your work:

As automation technician, you set up automation systems in mechatronics plants. You plan and build control systems for individual, computer-controlled machines.

### Your qualifications:

- Compulsory schooling completed
- Good basic understanding of technical matters
- Clean, precise and reliable worker
- Willing to work with electricity and computer-systems
- Quick to comprehend, able to work in a team, and willing to develop your professional skills

### Main focus of training

- Principles of mechatronic devices and machines and how to operate them
- Troubleshooting faults by means of systematic error detection
- Installing, starting up and checking components and group assemblies in control engineering
- Operating, controlling and programming industrial plants
- Application of relevant safety instructions

You will be trained in our **state-certified apprentice training center**, which has its own training workshops and classrooms, in our production facilities and at vocational school. As a special benefit, we offer our future skilled workers the opportunity to gain additional qualifications during their apprenticeships, such as a crane-driver's license, training to become a safety officer, or welding and hard-annealing qualifications according to international standards.

## **Try it out and get to know us**

If you're not quite sure what career to choose, whether you fit in with us or we fit in with you, we can simply get to know one another during an info or trial day. If we have aroused your interest, please send an e-mail to [lehre.weiz@andritz.com](mailto:lehre.weiz@andritz.com)

## **Read more about the company and the careers on offer:**

<https://www.whatchado.com/de/organizations/andritz>

## **Duration of apprenticeship and apprenticeship wage**

Beginning of apprenticeship: September 1, 2023

Duration of apprenticeship: 3.5 years

Apprenticeship wage (in first year of apprenticeship): EUR 1,105

ANDRITZ opens up many opportunities and careers to you. Take a look behind the scenes in a global company and gather valuable, practical experience. Many of our apprentices also decide to stay with the company after completing their training

You can upload your application documents (CV, hand-written letter of motivation and certificates from the last two years of your schooling) using our online job application tool. We look forward to receiving your application!
